

## CINELLI

[illegible]

The architectural drawing shows the floor plan of Padiglione C, divided into two main sections. The upper section contains several laboratories (LABORATORIO) with specific area measurements (e.g., 3.30, 5.39, 13.20, 7.81, 15.66, 24.36, 38.10, 41.01), a veterinary wash (LAVAGGIO VETERINARIA), a cold storage room (CELLA FRIGO), a department (DEP.), and restrooms (WC). It also features autoclave units (AUTOCCLAVE) and a technical area (AREA TECNICA). The lower section includes medical studies (STUDIO MEDICO), additional laboratories, a central treatment area (CENTR. TRATTAM. AREA), and a technical van (VANO TECNICO). A corridor labeled "cunicolo impiantistico" runs along the left side. A detailed inset at the bottom shows a staircase and elevator shaft with structural specifications like REI 120 and H=2.70.
